

To whom it may concern:

Subject: **COMMERCIAL WARRANTY AGRO**

Prometeon Tyre Group S.r.l. warrants all Pirelli brand products, supplied either directly or through an authorized Prometeon Dealer and which are mounted on agricultural vehicles, to be supplied without manufacturing or materials defects which render the products unsuitable for the use for which products of the same type are normally used. This warranty is valid for a period of up to 5 years (60months) from the date of production as identified by the DOT marking and or 5 years from purchase date if the customer validates an invoice mailing to [claims.management@prometeon.com](mailto:claims.management@prometeon.com).

This warranty shall apply only on condition that the customer submits to Prometeon a claim form completed in all its parts and makes the product available for technical examination by Prometeon technicians.

If a Pirelli brand tyre becomes unserviceable due to workmanship or material anomalies, as determined by examination of a Prometeon technician, Prometeon will determinate the value of the credit note multiplying the percentage of the residual usable tread depth by the selling price. The customer must pay for any associated charges, including dismounting, mounting and balancing of the tyre.

**Exclusions to this warranty:**

- 1) Tyres which have been modified by the addition or removal of material or any tyre intentionally altered to change its appearance.
- 2) Tyres injected with any filling product, such as balancer, sealant or ballast products, or in which anything other than air or nitrogen has been used as an inflation / support medium.
- 3) Tyre un-serviceability caused by tyre operation in excess of tyre / wheel manufacturer's specifications and recommendations, including insufficient speed rating, load index, undersized or oversized tyres, application of use, under or over-inflation
- 4) Tyres which became unserviceable because of a mechanical irregularity in the vehicle such as misalignment, defective brakes, defective shock absorbers, or improper wheel rims.
- 5) Tyres damaged by fire, climatic factors, chemical corrosion, vandalism, accidents, theft, run whilst flat, under-inflated, over-inflated or abused during servicing.
- 6) Flat spotting caused by improper transport or storage.
- 7) Tyres which become unserviceable because of hazard damage on the road or on the field (eg. nails, glass, metal objects, stubbles) or other penetrations or snags, bruises or impact damage.
- 8) Tyres damaged from improper mounting / demounting practices.
- 9) Tyre Dealer / Retailer services (eg. mounting / dismounting, tyre rotation or wheel alignment).
- 10) Tyres whose trademark, serial number or DOT are worn off or show signs of having been tampered with.

This is the only express warranty given by Prometeon and does not make any other express warranty or any implied warranty of merchantability or fitness for a particular purpose. This warranty cannot be changed by any other person to create any other obligation in connection with Pirelli brand tyres.

Prometeon will not do anything other than what is stated in this warranty if an anomaly is found to exist. All other remedies are excluded, including any obligation or liability on the part of Prometeon for consequential or incidental damages (such as loss of use of a vehicle, loss of time or inconvenience) arising out of an anomaly, as far as the law permits.

Best regards,

**Alexandre Bregantim**
